

LugoLocker

Do you want to be proactive and prevent security risks from unauthorised applications?

LugoLocker, safeguards against unwanted software and helps you and your business with compliance.

What Is LugoLocker?

We empower you to control which apps run on your devices with application allowlisting. Move beyond local admin rights—allow only trusted apps. Specific app approvals for enhanced security.

Why LugoLocker?

- 🔒 Reduce your business risk with a Zero Trust approach.
- 🛡️ Prevent users from installing unsafe software.
- 🚀 Smart setup with baseline mode – optimises settings and learns your workflow in just 2 weeks.

How It Works:

- 📊 LugoLocker learns your environment.
- 🛡️ Protection Mode: No new apps without approval.
- 🎯 Users have to request access for unlisted apps.
